Mr. Mark Lauriello, PE
President
Rettew Associates
3020 Columbia Avenue
Lancaster, PA 17603

Dear Mr. Lauriello,

I wanted to send you a brief letter in recognition of the excellent service that I have been receiving from Rettew's Camp Hill Office. In March, Rettew was selected to be the lead planning consultant on the Camp Hill, Wormleysburg, and Lemoyne Regional Comprehensive Plan. Prior to Rettew's involvement, my expectation of an award winning, model comprehensive plan was not being met. From the outset of their involvement, the Rettew team delivered the leadership, innovation, and professional expertise that this project demands. The efforts of Rob Lauriello, Frank Chlebnikow, Rebecca Denlinger, and Chris Knarr warrant recognition and praise for getting this project back on track and setting the stage for successful completion over the next year.

In addition, I have been recently been working with Bob Edwards on a major water supply study for Cumberland County. Over a 3 month period, Bob has met with me several times to identify our goals of the project, developed a scope of work, coordinated the involvement of four organizations, and completed two grant applications to fund the project. Bob's expertise, reliability, and professionalism impressed me throughout the process and undoubtedly made for a superior submission that will help the county be a leader in water supply planning. I would strongly recommend that Rettew continue such pre-contract assistance to clients as it is a significant advantage over your competitors.

In closing, I want to thank the Rettew team for their service to Cumberland County over the past several months. Rettew's quality work and client-first attitude will hopefully result in a fruitful working relationship with the county in the future.

Best Regards,

Kirk D. Stoner, AICP
Director of Planning
Cumberland County
